The World Utilities Congress, exhibition and conference provides an unique platform to explore the latest products, innovations and technological advancements across the global utilities landscape. World Utilities Congress will bring together power and water leaders to provide insights on building resilient low carbon business models with agile digital operations. Our focus is to ensure utility leaders are better prepared to equip their businesses for the future.

**Join 10,000 utility stakeholders and 250+ exhibitors showcasing the latest innovations and advancements within the utilities landscape.**

## THE UTILITIES INDUSTRY GLOBAL OVERVIEW

Global electricity demand was set for greater growth in 2021 than at any time over the last 10 years, **↑ 4.5% or 1,000 TWh** year on year (Platts)

The Global Utilities Market is expected to grow from \$4,230 bn in 2020 to **\$5,996 bn** in 2025 (Business Research Co)

Global water use for energy will increase **↑ 20%** over the period 2010-2035 and by 2050 will increase by **85%** (UN)

New forecasts published by GWI have projected that **the value of the global water market**, representing the sum of both operating and capital expenditures by utilities and industrial water users on water and wastewater, is **expected to grow from \$770 billion** in 2018 to **\$914.9 bn** by 2023. (Global Water Index)

## WORLD UTILITIES CONGRESS IN NUMBERS

10,000+  
VISITORS

20,000  
GROSS SQM

250+
