Event brief

The **World Utilities Congress**, hosted by **TAQA**, is where the global power and water utilities industry come together to exchange perspectives, strengthen partnerships, and shape the direction of the industry.

Taking place from **25-27 May 2027** at ADNEC Centre Abu Dhabi, you will join over **20,000 professionals** - including Ministers, CEOs, utility executives, investors, developers, and technology leaders - all focused on accelerating the transition to secure, sustainable, and resilient utility systems.

Experience the full value of the World Utilities Congress with access to the latest technologies, expert-led **Strategic** and **Technical** conferences, practical solutions to industry challenges and the innovation hub, where disruptive innovations and future-ready solutions are brought to life.
